9th July 2012

Dear Moray

National Forest Land Scheme Application
Approx 0.165 ha of Land centred on 'Allt Achadh na Moine', near Garmony

I am pleased to tell you that Bob McIntosh, Director, Forestry Commission Scotland, accepted the Evaluation Panel's recommendation on 6th July 2012 and has given 'in principle' approval for the Mull and Iona's application to the NFLS.

This was to lease approximately 0.165ha of land at Allt Achadh na Moine, Garmony, Mull to establish a hydro electricity scheme.

A statement to this effect will be placed on the NFLS website as soon as possible.

The period of 'in principle' approval will allow the applicant to undertake further feasibility work and enter into detailed discussions with Forestry Commission Scotland Forest Renewables over the terms and value of the lease option. The formalities should be completed within 18 months of the approval of the application, that is by 6th January 2014.

Congratulations and best wishes for the future.

Yours sincerely

M. Wield
